* All figures are estimates only, extrapolated from 1990 Census data and based on 1940 age adjustments. Data for 2001 is based on 2000 Census data, so may exaggerate or underestimate some differences. In some cases (such as Capitola) this difference results in the implication that a particular area's population has decreased, when in fact it may not have. This newer data is included to provide the most recent snapshot but, as the percentage change column indicates, may be misleading.

Ethnic Distribution

		Caucasian	Hispanic	Asian/ Pac. Island	African Amer.	Total
July 1997	%	71.0	23.5	3.9	1.1	99.5
	Num.	175,440	58,107	9,656	2,680	245,883

** householder refers to the person (or one of the people) in whose name the housing unit is owned or rented (maintained) or, if there is no such person, any adult member, excluding roomers, boarders, or paid employees. If the house is owned or rented jointly by a married couple, the householder may be either the husband or the wife. The person designated as the householder is the "reference person" to whom the relationship of all other household members, if any, is recorded. The number of householders is equal to the number of households. Also, the number of family householders is equal to the number of families.

Average household size of renter-occupied unit	2.70	2.70	-	-

* Many Census categories changed in 2000 and are not comparable to 1990 Census data; also, 1990 Census data does not reflect percent of total.

** A family is a group of two people or more (one of whom is the householder) related by birth, marriage, or adoption and residing together; all such people (including related subfamily members) are considered as members of one family. Beginning with the 1980 Current Population Survey, unrelated subfamilies (referred to in the past as secondary families) are no longer included in the count of families, nor are the members of unrelated subfamilies included in the count of family members. The number of families is equal to the number of family households, however, the count of family members differs from the count of family household members because family household members include any non-relatives living in the household.
